

Dromex

D59 MINING BOILERSUIT

Supplied with Sasol logo print on breast pocket

DW-D59MXX-O

Description

Dromex® DW-D59MXX-O, 100% cotton high visibility boilersuit is designed to protect the user from basic hazards such as abrasion whilst being durable and hardwearing, commonly used in the mining, rigging and steel installation industries.

The Dromex® DW-D59MXX-O boilersuit is approved to the latest SANS 434 specification and has the SABS permit marking.

The Dromex® D59 100 % cotton fabric construction is breathable, preventing accumulation of sweat especially when working in hot and humid environments and being natural is hypoallergenic, reducing skin irritations whilst promoting comfort. This fabric also provides thermal insulation when working in cooler environments.

This garment consists of the following:

- High visibility silver reflective tape on the arms, front legs, front shoulders, above breast pockets and orange flame retardant reflective tape on back legs, back shoulders, arm and rear of jacket for enhanced visibility when working in poor lighting environments.

- Collared neck with hanger loop.
- Concealed two way zip with metal button and press stud closure.
- Seams are triple needed stitched for durability.
- One left breast pocket with Dromex® sidewinder label, v-flap and standard SASOL logo,
- 1 open rear pant pocket and 2 swing pockets.
- Cargo pocket on right leg of trouser features double needle topstitching with a V-flap and concealed press stud closure.
- Available in yellow, orange and white.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. These workwear garments are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment.

Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the workwear suitability for the intended use.

Workwear protective garments should be thoroughly inspected before use to ensure no damage is present.

Should there be visible damage such as tears, it is recommended to replace the garment immediately.

Compliance & Conformity

- Garments comply to the latest SANS 434 standard (This standard specifies requirements for cut, make and trim of boilersuits).

This standard makes reference to the following relevant standards:

- SANS 1362 Sewing threads.
- SANS 1822 Slide fasteners.
- SANS 5278 Sewing stitches per unit length.
- SANS 10235 Fibre-content labelling of textiles and textile products.
- SANS 50471 High-visibility warning clothing for professional use.

- The fabric is to SANS 1387-4 for D59 drill fabric, 4/1 satin weave @270gsm, 37 thread per cm weft and 19 threads per cm warp. The breaking strength is 940 N warp and 510 N weft.

- These products are manufactured in ISO 9001:2008 (SANS9001) accredited manufacturing facilities and being mark bearing SABS garments are checked for conformity by the SABS.

Packaging, Storage & Obsolescence

DW-D59MXX-O, size 32 –64 is packed in an individual polybag and sold as 15 units.

Cleaning & Maintenance

- The following suggestions will help keep your garment safe and neat:
- D59 garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and setting are adhered to.
 - Should home procedures not remove contaminants, then dry cleaning is recommended.

- Our recommended cleaning for these garments is as follows:
 - Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach as fading may occur.
 - Do not tumble dry.
 - Thoroughly rinse the garment to remove any wetting agents.
 - Do not hang in direct sunlight as fading may occur.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
 - Iron on low heat.
 - Do not iron on reflective tape.
