J54 RT MINING SPEC CONTI SUIT

DW-J54-ANGXX-S

Description

Dromex® J54 high visibility jacket and pants suit is a lightweight work garment designed to provide the user with comfort, especially when working in hot and humid environments.

The Dromex® J54 pants and jacket is approved to the latest SANS 434 and SANS 1387 specifications and has the SABS permit marking.

The 100% cotton satin weave finish and natural fibre construction makes this garment breathable and durable.

This garment is available in 3 different colours, yellow, royal blue and red, which consists of the following:

Jacket features:

- Collared jacket with internal hanger loop.
- Concealed YKK brass zip closure.
- 2 Open waist pockets and 1 left breast mitred pocket with concealed press stud closure and Dromex® sidewinder label.
- Seams with triple needle topstitching for added durability.
- Side slits for better fit over waist.
- High visibility lime green silver reflective tape on arms, breast and rear of jacket (cross pattern) for enhanced visibility when working in poor lighting environments.

Pants features:

- A concealed brass YKK zip with metal button closure at waist.
- Two front swing pockets and a rear mitred open pocket with Dromex® sidewinder label and a ruler pocket on right leg.
- Seams with triple needle topstitching for added durability.
- Inner elasticated waist for optimum fit and flexibility with 7 belt loops.

This garment is suitable for use in general work environments such as agriculture, mining, logistics, warehousing, maintenance and repairs.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. These cotton garments are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the garment suitability for the intended use. This garment should be thoroughly inspected before use to ensure no damage is present.

Should there be visible damage such as tears, it is recommended to replace the garment immediately.

Jackets

Size 32 - 64 = 10 per carton.

Pants

Size 28 - 60 = 10 per carton.

Cleaning & Maintenance

- The following suggestions will help keep your garment safe and neat:
- J54 garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and settings are adhered to.
- Should home procedures not remove contaminants, then dry cleaning is recommended.
- Our recommended cleaning for these garments is as follows:
 - Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach as fading may occur.
 - Do not tumble dry.
 - Thoroughly rinse the garment to remove any wetting agents.
 - Do not hang in direct sunlight as fading may occur.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
 - Iron the garment on low heat.
 - Do not iron on reflective tape.
